

Brian S. Maready

Vice President

- Brian Maready brings a unique leadership background in lean healthcare and manufacturing with over 20 years of experience in Engineering, Operations, and Marketing. Prior to joining **NEXT LEVEL Partners®**, LLC (NLP), Brian's Lean Journey included a role as Engineering Manager at Goodrich Aerospace, under the guidance of Boeing's Lean Supplier Support Group and some of Japan's leading lean Sensei. Brian subsequently worked for Danaher Corporation in various roles, including a Director role in the world-renowned Danaher Business System ("DBS") Office, transforming new acquisitions around the world. His healthcare experience started when he served as an EMT and Ambulance Driver for the National Park Service, as well as serving as a medic in the U.S Army. He has led transformation work at mental health facilities, adult care providers, and various hospital systems.
 - In addition to Healthcare, Brian has also led transformations in various non-manufacturing industries including Retail, Oil & Gas Service, Hospitality, Government, Non-profit, Warehousing and Distribution, and Banking.
 - Brian specializes in supporting complete business transformations. He ensures companies become self-sustaining by integrating lean/continuous improvement principles and processes into the DNA of the culture.
 - Brian has a Mechanical Engineering degree from California Polytechnic State University, as well as a Finance and Accounting Certificate from Stanford University. He is an adjunct professor at both the Community College of Denver and Pikes Peak Community College, and is a guest lecturer for the University of Colorado and California Polytechnic State University.
 - Brian has worked extensively in Europe and North & South America, and is working on his proficiency in Spanish.
