

Andy Lee

Vice President

Hospitality and Entertainment

- Andy has over twenty years of experience implementing Lean principles and strategies. He has been mentored by the originators of the Toyota Production System (TPS). As the former director of Danaher Business Systems for the Southeast, Asia, and South America for Danaher Corporation (NYSE:DHR) and a pioneer in the lean movement, Andy helped lead the corporate-wide implementation of Lean concepts and helped develop what is known today as the Danaher Business System (DBS). DBS aligns Lean efforts within a company's business strategy at large.
 - Andy began his Lean career in 1995 at Danaher's Jacobs Chuck Manufacturing Division as Operation Manager and shortly after become General Manager. After extensively studying TPS, Andy was instrumental in developing the World Class lean reputations of several companies. He has spent considerable time in China implementing DBS at a variety of enterprises. His career in operations has been very successful.
 - With an undergraduate degree in Engineering, and Black Belt degree (Juran), & Master Black Belt certificates in all Lean Tools, Andy Lee has become a leader in Lean in the U.S. as well as throughout the world.
 - Andy has managed the implementation of high performance strategic processes for clients specializing in Lean innovation, rapid performance improvement, developing a Lean corporate culture and driving strategic growth for multi-industry manufacturers. Assisted in the Due Diligent process for Private Equity accusations. Managed in helping clients to strategically create value within their enterprises through the implementation of Lean principles and management systems using a unique process and business model.
