

Brian S. Maready

Principal

- Brian Maready brings 20+ years of Engineering, Operations, and Marketing leadership experience to every Lean Transformation he leads. Before joining **NEXT LEVEL Partners®**, **LLC (NLP)** his Lean journey included a role as Engineering Manager at Goodrich Aerospace under the guidance of Boeing's Lean Supplier Support Group and some of Japan's leading lean Senseis. Brian subsequently worked for Danaher Corporation in various roles, including a Director role in the world-renowned Danaher Business System ("DBS") Office, transforming new acquisitions around the world.
 - Brian has also led transformations in various non-manufacturing industries, including Healthcare, Retail, Oil & Gas, Laboratories & Testing, Service, Insurance, Hospitality, Government, Non-profit, Warehousing and Distribution, and Banking.
 - Brian specializes in supporting complete business transformations. He ensures companies become self-sustaining by integrating lean/continuous improvement principles and processes into the DNA of the culture.
 - Brian has a Mechanical Engineering degree from Cal Poly, as well as a Finance and Accounting Certificate from Stanford University. He is an adjunct professor at both the Community College of Denver and Pikes Peak Community College and is a guest lecturer for the University of Colorado and Cal Poly State University.
 - Brian has worked extensively in Europe and North & South America and is working on his proficiency in Spanish.
